Job Description:

Operators are system experts in their assigned area and are highly functional in multiple areas. **Operators** must also ensure efficiency, operational conformance, product quality and continuous improvement. Functions as a member of an area team which is directly responsible for the efficient production of quality products in the required quantities. Operate/change over specified machinery in the assigned area. Operators must have the skill set to train and/or perform the tasks of other associates in the area as needed. This job requires Strong Communication, Interpersonal and Team Building skills to support site objectives.

Functions include but are not limited to perform changeovers as needed, perform period deep cleanings, maintain supplies for your designated work area, properly fill out all paperwork and perform all cleaning/inspection/lubrication tasks (CIL'S). This is all to be performed while adhering to and encouraging the Five Principles of Mars.

What are we looking for?

SHIFT

Nights: Sunday-Thursday 11:00 pm - 7:30 am
